Subject: OPPOSE GST

I, Albert Ho, as a middle age citizen of HK, strongly oppose the installation of GST... this will only kill the shopping paradise of HK, reduce tourists coming to HK to do shopping, increase HK people to go back PRC to purchase... increase the burden of HK middle and low class people...

No real and long term goodness to the majority of HK citizen (i.e. middle and low class)! Only broaden the gap between the rich and the poor! If goodness only to the rich, burden only to the middle class and poor, what the hell is this HK would then be!

I strongly oppose!!!

I don't know what personal information should I left, if u need so, feedback to me then!
