Subject: Taxform comments

Dear Financial Secretary,

Before I express my views on the your taxform GST proposal, I must stress the taxform website is lack of questionnaire forms to reply our opinion on the GST. Are you expecting every citizen to write a lengthy letter to express their views?

I DO NOT believe it is right to have GST in Hong Kong because it DOES NOT answer the fundamental of our social expense problems. Stop daily intake of new immigrants, Hong Kong has only few resources and we cannot afford this uncontrollable population growth.

Yours faithfully,

Tony Leung
