(1) I urge your govt to eliminate its own internal wastefulness, redundancies, social-welfare abuses and stop other semi-govt agencies, councils, orgs etc to stop bleeding our hard-earned money FIRST and FOREMOST. (look into your Auditor's report for details. Need I say more)

(2) The govt expenditure should be kept below 13% of HK's GDP.

Without the above strategised as an ongoing process, ANY NEW TAXES ARE NOT EVEN WORTH MENTIONING.

Moreover, it is no telling a so-called "fair" GST will be fair anymore once into the hands of this untrustworthy govt., considering your wastefulness and ways of re-distribution in order to gain support from the root class.

NO TO GST AND ANY OTHER NEW TAXES.

P.S. I expect my email is going one-way. But do surprise me. NO BUREAUCRATIC MODEL ANSWER PLEASE.
