Subject: Merchandise & Services Taxes

Regarding to this newly Merchandise & Services Taxes. I'm really really against and make me to write to emphasize my feeling & my thinking.

Hong Kong is not a Welfare country. How come we can create this kind of tax to compare with other Welfare country. I'm using the Welfare, is the polite wording. As long as a people don't living longer then 65, don't talk about the Welfare.

Thus, the taxes income will be using for reduce the wine, hotel, pilot fuse. Is that really return to typical H.K. people??? I doubt.

Seiko - a H.K. residence
