Subject: 銷售稅激化行政立法關係(請勿修改)

I object this GST, because

- (1) more complicated taxing system deviate from HK simplicity tax philosophy
- (2) look at Canada, since with GST, economy has been down for 10 years, only until recently due to oil value increase its economy, not GST
- (3) I am a retired guy, there is no incentive for me, and I with lot of other friend will go to shenzhen
- (4) there are other tax system, like borrow land from shenzhen for industry, outsourcing HK professional to china...
- (5) also consider cut number of civil servant and their salary
