Return Receipt

Dear Sir/madam,

As a Canadian citizen , I returned to Hong Kong for good in 2001.

Back in Canada, GST is part of people's expenditure, and the legal grounds behind it would be: fairness to all people, as well as a stable + consistent income for the government.

Let me make myself clear: I support such proposal myself.

Thank you very much for your attention. All the best!

Best regards,  
LAU, Siu Wai Felix.
