Dear Sir/Madam,

I am one of the mid class Hong Kong citizen. For the goodwill of Hong Kong, I agree on the new proposal to add GST.

We all have to admit the fundamental problem of Hong Kong is that we have a very narrow tax base. It is very unhealthy and make Hong Kong economic stability at high risk. We all suffer that during the last few year and no one should forget it easily. Economic start picking up now. And just because economic start picking up, we have to start the reformation which we can do while economic is in downturn. I hope everyone can be more open minded for discussion and be more forward looking.

Of course, I will expect the government will introduce a series of release policy to help out those suffered.
