Dear Sir,

I object the above proposal because I join the VDS one years ago. I am 50 years old. Still single. Now I haven't find the suitable job. You said how can I pay more the tax. How can I live in future. I no spare money for the future use. I can't suffer more other tax. My mother is 77 years old. I must take care of her. She must see the doctor every month for checking. I haven't apply any other benefit from the government. Are you teach me to apply the money from the government? I don't want to do this. So hope you to reduce my heavy load. No make more trouble to the poor people.

Best regards,

B Lam
