Subject: GST Compensation Measures Unfair ?

25/07/2006 17:12

☐ Urgent

☐ Return Receipt

Why are compensation measures only targeted at households ? How about people

who do not have a family e.g. people who are not married, widows and widowers, retirees ? Do they not get any compensations ?

These people will suffer, especially if they have no income/low income. They

don't have to pay salaries tax anyway (and therefore won't benefit even if salaries tax rates are reduced), yet they will have to pay more for everything necessary for living: food, transport, medical services and medications, etc. So they will have to eat less, stay at home, and must not get sick !

Dorothy.
