☐ Urgent
☐ Return Receipt

Dear Sir,

I fully support this new system.

In the past, only those citizens with documented employment record need to pay tax. This is unfair.

Lots of people are enjoying the public facilities without paying taxes, they enjoy lightings in the streets, they walk on the public pavement, they cross the streets making use of the signalized road crossings, they listen to the weather forecast, they can phone 999 and obtain all types of emergency services, they cross the border and utilize Immigration Department's facilities, etc.

It is only fair that they should also be included into the "tax payee list"

Thanks.

David Chan
