Subject: GST view

Dear Sir

I would like to share my 2 inputs:

1. books (especially school text books) should be excluded from GST. In UK, all books carry no VAT. Books are the necessity to educate our next generations.
2. medicine, doctors fee, hospital fee, out-patients, etc should be excluded from GST. One does not choose to be ill, and the government should not tax those ill.

Thank you for your attention and consideration.

David Choi
