Attention: Tax Reform

I think our existing tax base is too narrow.

I do believe that HK need a tax base where revenue is generated from diversified sources that are less susceptible to external shocks and cyclical economic conditions.

I do think the Government, as a responsible government, should take action to reform the tax base to reform the tax base to ensure our future growth and prosperity. The reform should be implemented asap.

I strongly agree that GST is an appropriate option to broaden HK's narrow tax base.

Regarding options to return the fund to the community, I consider the salaries tax should be reduced by reducing both the rate and the standard salaries tax rate.
