Dear Mr. Tong,

When you first took up the job, I think you are the best and right person since you are from rich family and your father is a famous textile taipan with such strong family background I think you are able to lead Hong Kong into a bright future.

What a such dump and stupid suggestion you put GST on table for Hong Kong' s tax reform, even worst is no exception on foods spending, Canada' s lousy economy is a good example even though they have food exception on taxing, once you have such idea, I think I should move out all your credits - shame on you put Hong Kong' s future into a black hole, you should be shame to be one of Hong Kong people, even our ex-government British doest dare to touch such harming tax.
