Subject: Comment for GST-Objection

Dear Sir/Madam,

It is writing to reject/object the propose for GST implementation in Hong Kong. As I do not think HKGov. has made sufficient action in cutting Hong Kong Government expenditure.

as HKG did not show sufficient action in the year 2003 and 2004 for cutting hongkong government expenditure, therefore it got negative balance in that 2-3 years. But I believe HKG should definitely cut their budget accordingly to their income and not increase their income to cover their expenditure.

It is Definitely not comply with the Basic Law's 量入爲主 principle.

Thanks for your attention.

Your sincerely,

Ben Lau Ying Tai
