Urgent

Return Receipt

Dear Sir/Madam,

Our government is keen on wasting the money from tax payer. If I remember correctly, HK government has rise the tax rate during the tough period of HK (2002-2003). It is not just because HK government is suffering from not enough money. The root casue is that HK government has too much spending that is wasted.

I will not support GST as this will made our HK government spend more without considering the feeling of tax payers. Instead I will ask the urgent needs from HK goverment to cut their wasting habbit.

Regards,
