Honorable Donald Tsang Office  
Office of the Chief Executive  
Hong Kong Special Administrative Region  
People's Republic of China

Dear Sir,

Jewelry Kingdom has been operating jewelry retailing business in Tsimshatsui, the tourist area over 38 years. The shop disputes and deception from A.V. shop & Chinese Herbal stores has been existing over 1 decade but still occurs everyday. But tourist Broad & HK relative authorities seem incompetent & ignore to get rid the root of trouble. The police should have had all the reports. HKSAR tourist industry is been damaged everyday and it would eventually result in a terrible negative impact. For all such malpractice, we had written several letters to Hon. Mr. Tung, and Tourist Broad since 1997. But responses are so disappointing.

If the relevant authorities hesitate to take immediate action or appropriate measure, the name of shopping paradise is fading from this SAR government.

We strongly oppose the GST (consumption tax to be imposed) which will kill the retaining biz and the industry will positively decline.

Yours sincerely

(Signed)

Souza, Belinda  
Administration Manager
