

Dear Mr. Kenny Fung

GST - PROPOSED BY BRAINLESS PERSON SENIOR TO YOU

Although GST is through your mouth to the public, in fact we all know GST is proposed by someone above you. I can foresee GST once in force, the whole of H.K. will become from Bad to WORSE.

A. WHY OUR DEFICIT WILL BECOME VERY HIGH SOON?

As you are well aware the high deficit mainly due to:

1. too many trade benefits given by unreliable Senior Govt. Officials to property developers for the last few decades.
2. too high salaries and allowances to:
  - a) all non-contributory Senior Government Officials and
  - b) all non-contributory members of Legislative Council.
3. too much unnecessary outgoings paying out by those unreliable Senior Government Officials of various Departments.

B. HOW TO REDUCE DEFICIT?

Very easy. The following actions need be taken:

1. Claim back from property developers for all trade benefits they have taken illegally from Hong Kong Government through the hands of those unreliable Senior Govt. Officials and then let I.C.A.C. to take care of the said officials.
2. Cut 75% salaries and allowances from (a) all non-contributory Senior Govt. Officials and (b) all non-contributory members of Legislative Council.
3. Only approve all genuine outgoing after triple checking.

C. HOW TO INCREASE OUR FUTURE INCOME?

I can foresee H.K.'s economy is on the down trend, and Hong Kong Government can no longer rely on sale of land. In view of this Hong Kong Govt. need to go ahead my Plan B as referred to clearly in my letter of 25.10.2004 to you. Immediate action need be taken for items B and C jointly with the consent

from China. Yours sincerely

(Signed)
