Subject: so stupid and immoral to have GST

Dear mr. tong

stop doing harm to the general public of hk people and stop be the slave of the rich!! i am against the gst and hate it. you should bring back the estate tax and try the maybe the dividend tax of stock if you like to broaden the way to charge tax but not to bring the poor to tax (they have no \$). lastly, you are not a good enough to do your current job as you are not doing good to majority and poor people!!

pls go home.
