Subject: OPPOSE GST

History and experience show: GST will only increase and NEVER decrease. GST increases at a rate faster and higher than any other decrease of tax or increase of any governmental benefits.

You have NO proof whatsoever of how to utilize this extra income. We all know it will NEVER be used for the welfare of the population. Chinese history shows that the government is only a bunch of liars and corrupted rats. Economists should be the ones running the society, NOT YOU.

Finally CHINA MAINLAND show impose GST before HK even considers it. Compare to the western world, HK is not as advanced as it claims to be.
