cc:
Subject: GST

Dear Sir,

I am writing to object the proposal of a broad based sales tax for HK for the following reasons:

- 1) It will slow down the consumption and make goods and services less price competitive;
- 2) It is unfair for the retired and poor people to pay tax;

Instead an expanded luxurious goods tax should be adopted. This will aim to charge tax on the people that can afford the luxurious items.

Regards

POON Nai Chuen
