Mr Henry Tang,

Power tends to corrupt; absolute power corrupts absolutely.  
But please don't buy more power for our high rank officers with tax payer money.  
I support education voucher, because education has positive externalities.  
Please let us have a genuine pre-primary voucher.  
Leave quality control of kindergarten to the market, not our high rank officers.  
Government regulation will only stiffen variaties and creativities.  
  
No GST. It is administratively expensive.  
For broadening the tax base, please consider Green tax, or Ecotax.  
E.g. Tax on electricity and forestry products.
