Subject: View to increase taxation base

To the Financial Secretary,

- increase corporate taxes
- increase taxes for property developers according to their profit margins
- capital gains tax for speculators who own a flat for less than one year
- increase road user charges and also decrease pollution at the same time
- increase taxes for luxury items eg cigarettes, imported cars etc
- lower the threshold for those who need to pay tax so we all pay taxes so everyone in the community has a fair contribution. Many living in public housing estates own a car, have a maid, eat better than the struggling middle class!!!!
- quality immigrant scheme applicants should pay an initial levy because they are privileged to be setting up in Hong Kong where they will prosper.
- border tax for non-residents

Obviously the government should also take the necessary steps to curb its own spending and enhance financial control to avoid more fiascos such as unpaid hospital bills.

Thank you for your attention.

Jenn
