Subject: My views on GST

Dear administer,

I support GST. It is fair and can ensure HK's prosperity. I hope that Gov't will reconsider this tax in the future.

Suggestions for broadening tax base:

1. Progressive Profits Tax

- HK is awarded as the freest city in the world for the 13th consecutive years. Would the investors be discouraged by the progressive Profits Tax while which is adopted all around the world?

- It is much fair. Corporates like Jockey Club definetly should pay more tax.

2. Land and Sea Departure Tax & Arrival Tax

- Just in line with the existing Passenger Departure Tax, who will have strong rationale to oppose it?

- \$10 per head is reasonable and acceptable

3. Poll Tax

- Fair and broad-based
